SECTION 1: Identification

Product Identifiers: MAHNI Solid CreamGel, MAHNI CatEye CreamGel

Recommended Use: Nail cosmetic product (UV/LED gel polish).

Restrictions on Use: For professional use only. Avoid ingestion and contact with eyes or skin.

SECTION 2: Hazard Identification

Classification (GHS): Skin Sensitization – Category 1; Eye Irritation – Category 2

Signal Word: WARNING

Hazard Statements: May cause an allergic skin reaction. Causes serious eye irritation.

Precautionary Statements: Wear protective gloves/eye protection. If skin irritation occurs, seek medical attention. Keep out of reach of children.

SECTION 3: Composition/Information on Ingredients

Acrylates Copolymer (30–60%), Hydroxypropyl Methacrylate (10–30%), Dimethicone (1–5%), Silica (1–5%), Ethyl Trimethylbenzoyl Phenylphosphinate (1–5%)

May Contain (±): FDA/CI approved pigments (Iron Oxides CI 77491/77492/77499, Titanium Dioxide CI 77891, Ultramarine CI 77007, Carbon Black CI 77266, Chromium Oxides CI 77288/77289, Yellow 5 CI 19140, Red 6/7 CI 15850, Blue 1 CI 42090), Mica, Bismuth Oxychloride, Synthetic Fluorophlogopite, Magnetic Powders (Iron, Ferrite-based pigments, metallic oxides).

SECTION 4: First Aid Measures

Eyes: Rinse with water for 15 minutes. Seek medical advice.

Skin: Wash with soap and water. Discontinue use if irritation develops.

Inhalation: Move to fresh air if exposed to vapors during curing.

Ingestion: Rinse mouth. Do not induce vomiting. Seek medical attention immediately.

SECTION 5: Fire-Fighting Measures

Suitable Extinguishing Media: CO₂, dry chemical, foam.

Hazards: May release irritating fumes when burned.

Protective Equipment: Self-contained breathing apparatus recommended.

SECTION 6: Accidental Release Measures

Absorb with inert material. Dispose per local regulations. Avoid release into drains.

SECTION 7: Handling and Storage

Wear gloves; avoid skin contact. Store tightly closed in a cool, dry place. Protect from sunlight and UV. Keep away from food and beverages.

SECTION 8: Exposure Controls/Personal Protection

PPE: Gloves, protective glasses, adequate ventilation.

Local exhaust recommended during curing.

SECTION 9: Physical and Chemical Properties

Appearance: Colored viscous gel (may contain shimmer or metallic pigments)

Odor: Mild

Solubility: Insoluble in water

Flash Point: >100°C (estimated)

SECTION 10: Stability and Reactivity

Stable under normal conditions. Avoid heat, light, UV. May polymerize if exposed to UV light.

SECTION 11: Toxicological Information

May cause skin sensitization and eye irritation. Pigments and metallic powders are safe in cured state but may irritate in uncured form. Not expected to be acutely toxic.

SECTION 12: Ecological Information

Not considered hazardous in cured form. Uncured material may be harmful to aquatic life. Do not release into waterways.

SECTION 13: Disposal Considerations

Dispose of uncured product as hazardous waste in accordance with local, regional, and federal regulations. Cured product may be disposed as non-hazardous solid waste.

SECTION 14: Transport Information

UN Number: Not regulated.

Transport Hazard Class: Not applicable.

Packaging Group: Not applicable.

Shipping Name: Not regulated as packaged.

SECTION 15: Regulatory Information

OSHA Hazard Communication Standard: This product is classified as hazardous.

TSCA: All components are listed.

FDA: Pigments used are approved for nail cosmetic use.

EU REACH: Acrylates may be classified as sensitizers.

SECTION 16: Other Information

Revision Date: February 2025
